Purpose	<i>To pursue active and healthy lifestyles where cultures, traditions and the arts are celebrated including the provision of safe and welcoming spaces to connect, engage and learn</i>	<i>Strong economic growth and effective town planning where small to medium enterprises and agriculture-related business thrive, with a focus on improved connectivity, skilling, diversification and innovation</i>	<i>Tourism Events play in the long-term economic development and sustainability of communities in the Shire. Tourism Events can stimulate the local economy and employment through increased visitation, length of stay and expenditure while simultaneously encouraging business partnerships, creating a positive destination image of a region and building a sense of pride within the community.</i>	<i>To enhance, protect and sustain the environment, ensuring a triple bottom line approach of balancing social and economic needs with environmental goals.</i>	<i>Effective infrastructure design to support the Shire's needs with a focus on visionary planning to suit changing needs into the future.</i>	<i>To develop effective governance framework that drives enhanced organisational performance through project management, financial sustainability, performance management and community engagement.</i>
